End Violence Against Women!

Why we need gender equality now more than ever:

In the UK:

- Each year, more women die from domestic violence and rape than die from cancer. Two women a week are killed by a current or former partner.
- More than half a million women experience domestic violence each year.
- 1 in 4 women experience sexual assault. The UK currently has the lowest rape conviction rates in Europe: out of every 100 reported rapes, less than 6 cases end in the rapist being caught and convicted.
- The pay gap between men and women has RISEN to 17.1% in full time work, 36% in part time work.

Join us in a demonstration to promote gender equality and end Violence Against Women!
